Index to Volume 3

Authors and Titles

Andrews, C. M. *See* O'Shea, T. 659

Baber, R. J. *See* Kirsop, R. 537

Barham, K. *See* Young, M. 439

Bastias, G. *See* Ortiz, M. E. 333

Batt, P. A., Gardner, D. K., and Cameron, A. W. N.
Oxygen concentration and protein source affect the development of preimplantation goat embryos *in vitro* 601

Bazer, F. W., Thatcher, W. W., Matinat-Botte, F., Terqui, M., Lacroix, M. C., Bernard, S., Revault, M., and Dubois, D. H.
Composition of uterine flushings from Large White and prolific Chinese Meishan gilts 51

Beamer, W. G., and Whitten, W. K.
Do histocompatibility genes influence sex ratios (% males)? 267

Beamer, W. G. *See* Whitten, W. K. 255

Bernard, S. *See* Bazer, F. W. 51

Bindon, B. M. *See* O'Shea, T. 659

Bishop, S. *See* Yohkaichiya, T. 671

Borthwick, A. C. *See* MacLennan, A. H. 577

Boura, A. L. A. *See* King, R. G. 405
and Walters, W. A. W. 475

Breed, W. G. *See* Pöllänen, P. 303

Brennecke, S. P. *See* Chen, Y. S. 467
and Gude, N. M. 495
and King, R. G. 405
and Krishna, B. R. 459

Brock, C. R. *See* Kirsop, R. 537

Bryant-Greenwood, G. D.
Human decidual and placental relaxins 385

Burger, H. G.
Inhibin: clinical physiology and cancer d'agnosis 227

Cameron, A. W. N. *See* Batt, P. A. 601
and Kumar, J. 585

Caple, I. W. *See* MacIsaac, R. J. 447

Care, A. D. *See* MacIsaac, R. J. 447

Carroll, J., Whittingham, D. G., and Wood, M. J.
Growth *in vitro* and acquisition of meiotic competence after the cryopreservation of isolated mouse primary ovarian follicles 593

Carter, S. C. *See* Whitten, W. K. 255

Chan, E.-C. *See* Davies, J. J. 397

Chaturapanich, G., and Jones, R. C.
Morphometry of the epididymis of the tammar wallaby, *Macropus eugenii*, and estimation of some physiological parameters 651

Chen, Y. S., Brennecke, S. P., Rook, T. J., and King, R. G.
Effect of (2-benzoylethyl)trimethylammonium and vesamicol on acetylcholine and prostaglandin release from human placental explants 467

Chen, S. *See* King, R. G. 405

Cherny, R. A., Salamonsen, L. A., and Findlay, J. K.
Immunocytochemical localization of oestrogen receptors in the endometrium of the ewe 321

Cope, B. C. *See* Payne, E. 725

Cousins, S. J. *See* Rodger, J. C. 119

Crane, L. H., and Martin, L.
In vivo myometrial activity in the rat during the oestrous cycle: studies with a novel technique of video laparoscopy 185

Crane, L. H., and Martin, L.
In vivo myometrial activity during early pregnancy and pseudopregnancy in the rat 233

Crane, L. H., and Martin, L.
Pace-maker activity in the myometrium of the oestrous rat: *in vivo* studies using video-laparoscopy 519

Crane, L. H., and Martin, L.
Postcopulatory myometrial activity in the rat as seen by video-laparoscopy 685

Crane, L. H., and Martin, L.
Effects of medroxyprogesterone acetate (MPA) on myometrial activity in unmated rats: a study *in vivo* using video-laparoscopy 737

Crane, L. H. *See* Martin, L. 615

Croxatto, H. B. *See* Ortiz, M. E. 333

Curlewis, J. D., Sibbald, A. M., Milne, J. A. and McNeilly, A. S.
Chronic treatment with long-acting bromocriptine does not affect duration of the breeding season, voluntary food intake, body weight, or wool growth in the Scottish Blackface ewe 25

Darrigrande, O. *See* Ortiz, M. E. 333

Davies, J. J., Falconer, J., Zhang, H.-P., Chan, E.-C., McLean, M., and Smith, R.
Perifused ovine placental tissue secretes β-endorphin immunoreactivity 397

Davies, J. J. *See* Falconer, J. 379

de Kretser, D. M. *See* Khong, T. Y. 391
and Yohkaichiya, T. 671

Diotallevi, L. *See* Shaw, J. M. 621

Dobson, H. *See* Nanda, A. S. 709

Doughton, B. W. *See* Findlay, J. K. 543

Dowsett, K. F. *See* Pearse, B. H. G. 109

Dubois, D. H. *See* Bazer, F. W. 51

Evans, G.
Application of reproductive technology to the Australian livestock industries 627

Evans, G. *See* Jabbour, H. N. 1
and Jabbour, H. N. 561
and Jabbour, H. N. 699

Falconer, J., Davies, J. J., Zhang, H.-P., and Smith, R.
Release of insulin-like growth factor I by the sheep placenta *in vitro* 379

Falconer, J. *See* Davies, J. J. 397

Findlay, J. K., Doughton, B. W., and Russell, D. L.
Peripheral concentrations of immunoreactive inhibin during pregnancy and parturition in the ewe 543

Findlay, J. K. *See* Cherny, R. A. 321
and Khong, T. Y. 391
and Michel, U. 215

Fraser, I. S.
Relationship between gonadotrophin-releasing hormone analogue therapy and bone loss; a review 61

Fraser, I. S.
A review of the use of progestogen-only minipills for contraception during lactation 245

Gardner, H. G., and Kaye, P. L.
Insulin increases cell numbers and morphological development in mouse pre-implantation embryos *in vitro* 79

Gardner, D. K. *See* Batt, P. A. 601

Giles, W. B.
Biophysical assessment of placental and membrane dysfunction 483

Gillet, W. R.
Artefactual loss of human ovarian surface epithelium: potential clinical significance 93

Grant, P. *See* MacLennan, A. H. 577

Grimson, R. J. *See* Kleemann, D. O. 71

Grosser, T. I. *See* Kleemann, D. O. 71

Gude, N. M., King, R. G., and Brennecke, S. P.
Endothelin: release by and potent constrictor effect on the fetal vessels of human perfused placental lobules 495

Gude, N. M. *See* King, R. G. 405

Haddad, Y., and Steigrad, S.
Screening for *Neisseria gonorrhoeae* and *Chlamydia trachomatis* in a donor insemination programme 743

Harvey, M. B., and Kaye, P. L.
Visualization of insulin receptors on mouse pre-embryos 9

Hasegawa, Y. *See* Kaneko, K. 529

Healy, D. L. *See* Khong, T. Y. 391
and Yohkaichiya, T. 671

Heath, J. A. *See* MacIsaac, R. J. 447

Helliwell, R. *See* Wallace, J. M. 127

Hillard, M. A. *See* O'Shea, T. 659

Hinds, L. A.
Prostaglandin alone does not cause luteolysis in the non-pregnant tammar wallaby, *Macropus eugenii* 17

Hunton, J. R. *See* Ryan, J. P. 551

Igarashi, M. *See* Kaneko, H. 529

Jabbour, H. N., and Evans, G.
Fertility of superovulated ewes following intrauterine or oviducal insemination with fresh or frozen–thawed semen 1

Jabbour, H. N., and Evans, G.
Superovulation of Merino ewes with an ovine pituitary follicle stimulating hormone extract 561

Jabbour, H. N., Ryan, J. P., Evans, G., and Maxwell, W. M. C.
Effects of season, GnRH administration and lupin supplementation on the ovarian and endocrine responses of Merino ewes treated with PMSG and FSH-P to induce superovulation 699

Jarry, H. *See* Michel, U. 201

Jinghua, Y. *See* Michel, U. 215

Jones, A. R., and Montague, M. D.
Metabolism of fructose-1,6-biphosphate by mature boar spermatozoa 609

Jones, R. C. *See* Chaturapanich, G. 651
and Sujarit, S. 313

Kaneko, H., Terada, T., Taya, K., Watanabe, G., Sasamoto, S., Hasegawa, Y., and Igarishi, M.
Ovarian follicular dynamics and concentrations of oestradiol-17β, progesterone, luteinizing hormone and follicle stimulating hormone during the periovulatory phase of the oestrous cycle in the cow 529

Kaye, P. L. *See* Gardner, H. G. 79
and Harvey, M. B. 9

Khong, T. Y., Healy, D. L., Findlay, J. K., and de Kretser, D. M.
Inhibin and the human placenta: a critique 391

Khong, T. Y., and Sawyer, I. H.
The human placental bed in health and disease 373

King, R. G., Gude, N. M., Krishna, B. R., Chen, S., Brennecke, S. P., Boura, A. L. A., and Rook, T. J.
Human placental acetylcholine 405

King, R. G. *See* Chen, Y. S. 467
and Gude, N. M. 495
and Krishna, B. R. 459

Kirsop, R., Brock, C. R., Robinson, B. G., Baber, R. J., Wells, J. V., and Saunders, D. M.
Detection of anti-ovarian antibodies by indirect immunofluorescence in patients with premature ovarian failure 537

Kleemann, D. O., Walker, S. K., Grimson, R. J., Smith, D. H., Grosser, T. I., and Seamark, R. F.
Exogenous progesterone and embryo survival in Booroola-cross ewes 71

Krishna, B. R., King, R. G., and Brennecke, S. P.
Acetylcholine output and materno-fetal α-aminoisobutyric acid transfer in the perfused human placental lobule 459

Krishna, B. R. *See* King, R. G. 405

Krozowski, Z. *See* Michel, U. 215

Kumar, J., Osborn, J. C., and Cameron, A. W. N.
Luteinizing hormone and follicle stimulating hormone induce premature condensation of chromatin in goat (*Capra hircus*) oocytes 585

Lacroix, M. C. *See* Bazer, F. W. 51

Li, R., and Trounson, A.
Rapid freezing of the mouse blastocyst: effects of cryoprotectants and of time and temperature of exposure to cryoprotectant before direct plunging into liquid nitrogen 175

Lindsay, D. R. *See* Sutherland, S. R. D. 679

Lopez Bernal, A. *See* Newman, G. E. 421

Luck, M. R., and Münker, M.
Beta Adrenoceptors mediate the catecholamine-induced stimulation of oxytocin secretion from cultured bovine granulosa cells 715

Lüdemann, S. *See* Michel, U. 201

MacLennan, A. H., Grant, P., and Borthwick, A. C.
Relaxin and relaxin *c*-peptide levels in human reproductive tissues 577

MacLeod, E. A. *See* Olson, D. M. 413

MacIsaac, R. J., Heath, J. A., Rodda, C. P., Moseley, J. M., Care, A. D., Martin, T. J., and Caple, I. W.
Role of the fetal parathyroid glands and parathyroid hormone-related protein in the regulation of placental transport of calcium, magnesium and inorganic phosphate 447

Mamers, P. *See* Yohkaichiya, T. 671

Martin, G. B. *See* Thiéry, J.-C. 137
